

PARENT PAYMENT POLICY AND IMPLEMENTATION

Montpellier Primary School

PURPOSE

To ensure that parent payment practices are consistent, transparent and ensure that all children have access to the standard curriculum.

RATIONALE

The Victorian community shares a vision to build an education system that champions excellence and ensures that every child and young person has access to the opportunities to succeed in life, regardless of their background or circumstances.

Schools are best placed to make local decisions which ensure that all students can access a broad range of learning opportunities that support their expectations and promote their aspirations as they move through the education system. Parent contribution, in all forms, assists schools to provide an enriched learning and teaching program for every student and is highly valued by school communities.

Learning and teaching programs vary across schools based on local needs and circumstances and reflect each school's priorities, decisions and resources. This, in turn, informs the parent payment charges approved by school councils that may vary from one school to the next.

WHAT CAN SCHOOLS CHARGE FOR?

The Education and Training Reform Act 2006 provides for instruction in the standard curriculum program to be free to all students in government schools. School councils are responsible for developing and approving school-level parent payment charges and can request payments from parents under three categories only- Essential Student Learning Items, Optional Items and Voluntary Financial Contributions.

Essential Student Learning Items are those items, activities or services that are essential to support student learning of the standard curriculum. These are items that the school considers essential for all students and which students take possession of. Parents may choose to provide the items themselves or buy the items from the school where practical and appropriate.

Optional Items are those items, activities or services that are offered in addition to or support instruction in the standard curriculum program. These are provided on a user-pays basis so that if parents choose to access them for students, they are required to pay for them.

Voluntary Financial Contributions

Parents can be invited to make a donation to the school for a general or specific purpose, e.g. school grounds projects, library fund or for new equipment. Only some Voluntary Financial Contributions are tax-deductible.

The attached diagram "**Understanding Parent Payment Categories**" provides examples of items and materials under each category.

In implementing this policy, schools must adhere to the following principles:

PRINCIPLES

- **Educational value:** Student learning, aspirations and wellbeing are paramount when schools determine their parent payments practices
- **Access, equity and inclusion:** All students have access to the standard curriculum program and participation of all students to the full school program is facilitated
- **Affordability:** Cost to parents is kept to a minimum and is affordable for most families at the school
- **Engagement and Support:** Early identification and engagement strategies by the school ensure parents are well informed of the payment options and supports available for those experiencing hardship
- **Respect and Confidentiality:** Parents and students experiencing hardship are treated with respect, dignity, sensitivity and without judgement and the identity and personal information of all parents and students are kept confidential in respect to parent payments
- **Transparency and Accountability:** School parent payment practices are well communicated, clear and transparent and their impact on student programs and families are reviewed by school councils

COST AND SUPPORT TO PARENTS

When school councils consider the proposed requests for parent payments the cost is kept to a minimum and is affordable to most parents at the school.

School principals must ensure that:

- items students consume or take possession of are accurately costed
- payment requests are broadly itemised within the appropriate category
- parents are advised that they have the option of purchasing equivalent Essential Student Learning Items themselves, in consultation with the school
- information on payment options is available, accessible and easily understood to all parents so that they know what to expect and what supports they can access
- parents are provided with early notice of annual payment requests for school fees (i.e. a minimum of six weeks' notice prior to the end of the previous school year). This enables parents to save and budget accordingly.
- parents are provided with reasonable notice of any other payment requests that arise during the school year- ensuring parents have a clear understanding of the full financial contribution being sought
- the status and details of any financial arrangements are kept confidential and only shared with relevant school personnel
- parents experiencing hardship are not pursued for outstanding school fees from one year to the next
- use of debt collectors to obtain outstanding school funds owed to the school from parents is not permitted
- there will be only one reminder notice to parents for voluntary financial contributions per year
- Invoices/statements for unpaid essential or optional items accepted by parents are not generated more than monthly or according to the parent payment arrangement with the school.

SUPPORT FOR FAMILIES

Families may experience financial difficulties and may be unable to meet the full or part payments requested. Principals and school councils exercise sensitivity to the differing financial circumstances of students and their families when considering parent payment fees. There are a range of support options available to support and assist parents. These can be accessed through [“Cost support for families.”](#)

Consideration to hardship arrangements in respect to payment requests is provided to families experiencing long term hardship or short term crisis on a confidential, case by case basis. All schools have written hardship arrangements that include a proactive approach to providing support for parents experiencing financial difficulty.

All parents are provided the name and contact details of a nominated parent payment contact person at the school who they can discuss payment arrangements with.

ENGAGING WITH PARENTS

In respect to each school’s development of its parent payments, school councils will engage in effective communication with the school community and have strategies in place to ensure they are aware of and understand the needs and views of parents.

REVIEW OF POLICY IMPLEMENTATION

Schools will monitor the effectiveness and impact of the implementation of this policy at least annually as part of its ongoing improvement and report back to the school community.

Understanding Parent Payment Categories

Schools

What does the legislation say?

The Education and Training Reform Act (2006) provides for free instruction in the standard curriculum program to all students in government schools. The Act also empowers school councils to charge fees to parents for goods and services provided by the school to a child.

In the Act, a 'Parent' includes a guardian and every person who has parental responsibility for a child including parental responsibility under the Commonwealth Family Law Act 1975 and any person with whom a child normally or regularly resides.

What do schools pay for as part of 'free instruction'?

Free instruction is the teaching staff, administration and the provision of facilities in connection with the instruction of the standard curriculum program, including reasonable adjustments for students with disabilities.

The standard curriculum for Years F-10 means implementation of the Victorian Curriculum F-10.

The standard curriculum for senior secondary schools means a program that enables a student to be awarded a VCE or VCAL qualification.

What principles govern parent payment practice?

Educational Value | Access, Equity & Inclusion | Affordability

Engagement & Support | Respect & Confidentiality | Transparency & Accountability

Parents

What may parents be asked to pay for?

Schools can request payment for Essential Student Learning Items

These are items, activities or services that the school deems **essential** to student learning of the standard curriculum.

Where practical and appropriate, parents may choose to purchase items through the school or provide their own.

These may also be either:

Items the student takes temporary or permanent possession of

- e.g.
 - textbooks, activity books, exercise books
 - stationery, book bags
 - student ID cards, locks
 - cooking ingredients students will consume
 - materials for final products that students take home (technology projects, build-your-own kits, dioramas)
 - Picture Exchange Communication Systems

Activities associated with instruction that all students are expected to attend

i.e. travel, entry fees or accommodation

- e.g.
 - excursions
 - incursions
 - school sports
 - work placements

Parents can be asked to pay for items, activities and services in the three Parent Payment Categories:

Essential Student Learning Items, Optional Items and Voluntary Financial Contributions.

Schools determine how items, activities and services are classified within these categories based on the learning and teaching program of their school.

Schools can request payment for Optional Items

These are items, activities or services that are **optional** and are offered in addition to the standard curriculum.

Students may access these on a user-pays basis.

These may be either:

Items the student purchases or hires

- e.g.
 - school magazines, class photos
 - functions, formals, graduation dinners
 - materials for extra curricular programs
 - student accident insurance

Activities the student purchases

- e.g.
 - fees for extra curricular programs or activities, such as instrumental music tuition
 - fees for guest speakers
 - camps, excursions, incursions, sports
 - entry fees for school run performances

Items and/or materials that are more expensive than required to meet the standard curriculum

- e.g.
 - use of silver in metal work instead of copper
 - supplementary exam revision guides

Support for families experiencing hardship is available at every school and each school has a parent payment contact person. See your school's policy for more information.

For more information on Parent Payments and Personal Devices, visit the DET website at: www.education.vic.gov.au

Schools can invite **Voluntary Financial Contributions** for

- e.g.
 - Building or Library fund (Tax deductible)
 - Voluntary contributions for a specific purpose, such as equipment, materials, services.
 - General voluntary contributions

Parent Payment Policy

PURPOSE

- The Education and Training Reform Act (2006) provides for free instruction in the standard curriculum program to all students in government schools. The Act also empowers school councils to charge fees to parents for goods and services provided by the school to a child. As the quality and variety of educational programs offered by our school are enhanced by doing so, our School Council requests payment from parents for certain student materials and services charges, and for modest voluntary financial contributions. These are further set out in the DET Parent Payment in Schools Policy 2016.

OBJECTIVE

- To provide high quality learning opportunities for all students, by supplementing limited government funds with approved financial contributions and payments from parents.

POLICY

- School Council supplements Department of Education and Training funds by requesting payments from parents for the following items:-
 - **Essential Student Learning Items**, which parents and guardians are required to provide or pay the school to provide items that the student takes temporary or permanent possession of such as text books (or photocopied excerpts of textbooks and worksheets), student stationery, book bags, materials for learning and teaching where the student consumes or takes possession of the finished articles (e.g. technology projects, workbooks, IT applications) *it is considered that many of these items are those for which a parent cannot reasonably be expected to source due to their specific nature and by the nature of the program may change throughout the year, or it may not be practical (ie food items) and therefore the school charges for the use of. Activities associated with instruction that all students are expected to attend, such as costs associated with some excursions and incursions.
 - **Optional Items**, which are offered in addition to the standard curriculum on a user pays basis and parents can choose whether or not their child participates eg: gymnastics, swimming, camps, excursions, instrumental music tuition. In addition, School Council invites parents to make donations by means of:-
 - **Voluntary Financial Contributions**, which are non-compulsory donations for specific projects eg:, building projects, ict equipment, chaplaincy program support.
- Parents will be made aware of the costs associated with all payments and voluntary contributions by November of the previous year, along with a recommended payments schedule.
- The payments schedule will include itemised details relating to all payments, an option to purchase goods elsewhere (where appropriate), essential payment dates, options to make payments by instalments, clear definitions of the category of any payments (ie: Essential, Optional or Voluntary), and advice to parents to contact the principal if they require support or additional information.
- All payments and non-payments will be strictly confidential. The public identification of students or their parents where payments have or have not been received will not occur.
- All costs and processes associated with parent payments and voluntary contributions will be reasonable, will be defensible in relation to Department of Education requirements, and will be within the expectations of the school community.
- As with all parent payments to the school, Council will provide opportunities for all parents experiencing financial difficulties to enter into alternative and confidential payment arrangements with the principal or business manager.
- Support for families experiencing financial hardship is available at Montpellier Primary School. Please contact the Business Manager, Jill Bell, to discuss support options.
- Invoices for unpaid **Essential Items** to occur in February and July (if required) each year.
- Unpaid **Essential Items** payments will not affect the delivery of the standard curriculum to the student. Unpaid **Voluntary Financial Contributions** do not constitute a non-payment and will not result in any detriment by the school to the student or family.
- No collectors of any type, including debt collectors, will be used to obtain funds from parents or students.
- Our school will consider requests for partial or full refunds of payments made by parents on a case-by-case basis taking into account the individual circumstances. Generally, we will not be able to refund payments for items purchased or costs that have already been paid where those funds have already been transferred to a third party. For example, camp costs when a child becomes unwell and cannot attend in circumstances where the payment has already been made or committed to a third party and no refund is available to the school. Where possible, we will make this clear to parents at the time of payment.
- The principal will ensure that all staff are aware of this policy and adhere to it.

REVIEW CYCLE

- This policy will be reviewed on an annual basis. School Council will review the level and purpose of parent payments and voluntary contributions annually and in doing so will be consistent with any advice or instruction received from the Department of Education and Training.

This policy was endorsed by School Council on 16 September 2019
